the oxford handbook of energy and society offers a collection of contemporary sociological research highlighting the growing instability and disruptions associated with fossil fuel dependence and the emerging challenges and innovations associated with a transition away from fossil fuels regional case studies of different energy resources from around the world are featured as are the roles of politics markets technology social movements and consumers all contributing to a complex systems perspective on the

uncertain future of energy society relations

this title was first published in 2002 loosely divided into two sections this book s first part includes chapters which explore young people s identities and youth cultures in relation to issues such as drug use education and dance music in various ways the authors examine whether there is a need to rethink the existing theories and concepts which have informed the study of youth cultures and identities the second part to the volume is concerned with how young people experience transitions in relation to such topics as employment sexuality and household formation the chapters also raise theoretical questions on the usefulness of the transition concept in late modernity illustrating how the reshaping of key institutions in late modernity has had a profound effect on the sorts of transitions young people make today in addressing such issues the authors examine the potential contribution that concepts around risk and risk society and new third way social policy initiatives can have to contemporary youth studies

in recent years the peasant household has become a central focal point of social history this is true not only because the peasant represents the major element of european society through the nineteenth century but also because many of the main issues in modern historical debate can be studied within the sphere of the peasant family this book deals with the european peasant family during the period of transformation from agrarian to industrial society the time called by some the period of protoindustrialization the essays in this volume explore some of the major issues concerning the influence of the economy society and institutions on the peasant household and conversely the influence of the peasant household on the outside world themes dealt with include the ways in which the physical environment and the economy may make for very different family structures and even affect intra family relationships the effects of inheritance marriage and kinship strategies as well as social pressure on peasant family structure and demography the debate about changing gender roles and status the debate over the manner and effects of class formation questions of social and political agency the nature of gender and parent child relations the validity of protoindustrial theory and the role of peasants in initiating industrialization as consumers producers and as a labor force in examining these themes the essays provide both case studies and innovative analysis by preeminent international scholars in the fields of family and women s history economic history and demography

the sociology of art is now an established sub discipline of sociology but little work has been done to explore the implications not of society on art but of art on the nature and principles of sociology itself vision and society explores the ways in which art here mainly understood as visual art structures in fundamental ways the constitution of society the relations between societies and the ways in which society and culture should be theorized building initially on an unfulfilled project by the french sociologist of art nathalie heinich to derive a sociology from art this book pushes this idea in unconventional directions rethinking the relationships between the study of art and the study of sociology and anthropology this book explores how this rethinking might impact sociological theory in general and certain aspects of it in particular especially the study of social movements social change the urban the constitution of space and the ways in which human social relationships are mediated and expressed

a brief book that uses examples from a college or university setting to illustrate society in terms of social groups and forces college and society is based on the premise that colleges are not ivory towers that stand in contrast to the larger society rather the author argues that colleges tend to reflect many of the same social structures culturally based expectations of social conduct and patterns

of interaction seen at work in the larger society for anyone interested in learning basic concepts of sociology

contains its proceedings
